- Beverly has historical information to complete that section and this will be incorporated as it is received
- We have not received the survey data in a chart format or the information on Camp-of-the-Woods
- Beverly and Paul have been reviewing photos for the document and some potential ones were reviewed; In addition to incorporating pictures on text pages, a separate page with just photos will be added
- Florence Braunius has responded to our request for information on the Water and Wastewater Department; It was decided to include a chronological development of the Department in the Plan with a list of projected goals for the future as an appendix. Should we receive information from the Highway and Fire Departments, we will incorporate their information in the same format; we also need to discuss future needs anticipated by the ambulance corps in our Plan. Karen will talk to Phil and Joyce.
- We discussed putting information on our progress on the Village website, which is a link from the Town website; we would like a comment section; Karen will work on this; we will also put an "up to date" copy of the draft in the library
- Cheryl has obtained some preliminary maps from Del Cook; these were reviewed and recommendations made which Cheryl will take back to Del for changing
